-
- a. Processor clock speed is measured at computer start-up, and on laptops may be impacted by power management settings.
 - b. Data may be transferred on the bus at one, two, four, or eight times the Bus Clock rate.
 - c. Memory slot contents may not add up to Installed Memory if some memory is not recognized.
 - d. Memory slot contents is reported by the motherboard BIOS. Contact system vendor if slot contents do not match.
 - e. This may be the manufacturer's factory installed product key rather than yours. You can find the full product key at <https://www.belarc.com/msproductkeys.html>.
 - f. The full product key is not stored on this computer. However, the characters shown uniquely identify the product.
 - g. You can have Windows save the full product key using the procedure at <https://www.microsoft.com/windows/activation>.

ed by power option settings.

nized by Windows.

ot contents are wrong.

i change it to your product key using the procedure at

uely identify your product key.
